

TO STOP PRIZE FIGHTS

A Federal Law to That Effect Proposed.

ALREADY PASSED THE HOUSE.

It Makes Prize Fighting a Misdemeanor, Punishable by Imprisonment For Not Less Than Five Years—The Mexican Government Just as Determined to Prevent It Taking Place on Mexican Soil.

WASHINGTON, Feb. 6.—The debate on the senate free coinage substitute for the house bond bill was scheduled to commence in the house, and there was a good attendance, in consequence, in the galleries.

The session opened with an attempt to pass a bill to stop the "pugilistic festival" billed to take place "near El Paso, Tex.," on Feb. 14. The bill makes prize fighting a misdemeanor, punishable by imprisonment for not less than five years.

Mr. Catron, the delegate from New Mexico, asked unanimous consent for the consideration of the bill. Mr. Catron explained that it was notorious that the preparations for the series of fights now going on at El Paso, Tex., could not take place there, but were to occur in the territory of New Mexico which was within three miles of El Paso.

The governor of New Mexico had publicly stated, Mr. Catron said, that he knew of no law to prevent the fights. Mr. Catron also said that it was the purpose of the managers of these fights to supplement their bill fights and some Mexican bills were now on their way to the United States. In view of the shortness of the time remaining (nine days) he wanted the house that if objections were made and the bill was sent to a committee, it could not pass both houses and be signed in time to prevent the "mills."

Mr. Knox (Rep., Mass.) objected and the bill went to committee. The regular order being then demanded the votes were taken on the District of Columbia appropriation bill, on which a fight has been made over charitable appropriations. This was defeated by a vote of yeas 135 to 143 nays.

Mr. Grosvenor (Rep., O.) moved to reconsider. The motion carried, 189 to 80. Mr. Grosvenor then moved to reconsider the bill with instructions to re-examine the bill and report on the subdivisions under the head of charities. After a short debate this was done without division.

Mr. Henderson (Rep., Ia.), chairman of the committee on judiciary, then reported the Catron bill to prevent prize and animal fighting in the District of Columbia and the territories. He explained that it had been considered by the committee on judiciary and had been amended to meet the objections of Mr. Knox of Massachusetts.

After some humorous inquiries the bill was passed.

At 3 o'clock the house went into committee of the whole, Mr. Payne (Rep., N. Y.) in the chair, and took up the consideration of the free coinage substitute for the house bond bill. This was discussed for the remainder of the session.

In the Senate.

WASHINGTON, Feb. 6.—There were indications of a lively session when the senate convened. Mr. Quay's resolution to reconsider the tariff-silver bill with instructions, was supposed to be first in order of consideration after the routine business, but it was found that a prior resolution of Mr. Hansbrough directing the secretary of agriculture to execute the law as to seed distribution, had precedence. This was taken up and discussed throughout the entire day without any action being taken.

NO HOPE FOR THE FIGHT.

It Will Be Stopped If Federal Troops Have to Be Called Out.

WASHINGTON, Feb. 6.—It is learned here that some correspondence has passed between the governor of New Mexico and the United States district attorney for that territory and the department of justice at Washington with a view to preventing the proposed fight, which is to be held near El Paso, Tex., from taking place in that territory. The governor of the territory is anxious to stop the holding of the carnival in New Mexico, and is willing to do all in his power to bring about that result.

Should the Catron bill passed by the house yesterday receive favorable action at the hands of the senate and be signed by the president before the date of the carnival, and the belief in official circles is that such will be the case, the national government is to take steps to prevent the fights, using the federal troops if necessary. The enactment of the bill into law will, it is believed, have a deterrent effect on the fighters, as the "encounter" between the men is made a felony punishable by imprisonment, and it is an offense for which the accused may be arrested in any state and extradited.

Should the bill fail to pass the senate in time to become operative in the present case the governor of New Mexico has the power it is said, to proceed against the pugilists under a territorial regulation prohibiting duelling and disorderly conduct. Under this provision of law it is stated in official circles he can summon a posse and take other steps to preserve the peace. This power is not as adequate as the officials would like to have it for the reason that the pugilists might manifest indifference to the punishment provided by the regulation in question.

NOT ON MEXICAN SOIL.

Our Sister Republic Will Not Permit That Which We Do Not Approve.

CITY OF MEXICO, Feb. 6.—The position of the Mexican government on the impending prize fight is that since the American congress has legislated against prize fights, Mexico can not permit that which is condemned by public opinion in the United States. President Diaz is opposed to allowing the fight to come off on Mexican soil, and frankly says so. Governor Ahumada of the state of Chihuahua is in the city, and said:

"On no pretext will I grant a permit for the fight on Mexican soil. I go further than that; for I will take every possible means to prevent the fight, as has been announced. I have a force of cavalry out scouting along the frontier and I have ordered them to arrest anyone entering Mexico to take part in a prize fight. I shall be myself at Juarez on Sunday for the purpose of stopping this business. There is a piece of debatable territory near Juarez that is de facto under the control of the United States, but all I may say is that on Mexican soil, under our jurisdiction, the fights shall not take place, nor is there money enough in the United States to induce me, as governor, to allow the fight."

Sentiment of the Mexican government is fixed and unalterable and the proposed action by the Washington congress is heartily approved here.

BOLD TALK.

Dan A. Stuart Says That "No Power Can Stop These Fights."

EL PASO, Tex., Feb. 6.—"No power can stop these fights," said Dan A. Stuart yesterday, when informed of the passage of an anti-prize fighting bill by the house of representatives.

"They are coming off just as they are advertised. Bat Masterson got in this morning, and he will have much to do with the protection that will be accorded visitors. Tom O'Rourke, with his two colored wonders, Wolcott and Dixon, got in too, so that all the fighters, with the exception of Horace Leeds, are on the ground. You can say for me that so sure as the principals are alive and in condition to get into the ring on the date set for the contests, so sure will they fight and fight to a finish. If anybody evinces any sort of doubt as to this, I will lay them four to one for any part of \$50,000."

NOT TOLERATED IN TEXAS.

Governor Culbertson Expresses His Views on the State of Affairs.

AUSTIN, Feb. 6.—Governor Culbertson was seen last night and asked what he would do in case the management of the El Paso fistic carnival decided to pull off the fights in the Texas woods surrounding El Paso.

Governor Culbertson replied that he did not care to be interviewed on the subject; that his recent action and of those of the Texas legislature should be assurance enough to prize fighters that their presence in Texas would not be tolerated and that the officers of the state would see at all time that the stringent law against prize fighting was obeyed, no matter what section of the state the fighters tried to locate on and that it was unnecessary for him to dictate to the officers as to their duties.

Trying to Buy a Location.

CITY OF MEXICO, Feb. 6.—El Globo says the prize fight managers have offered the state of Chihuahua \$20,000 in gold for permission to have the contests take place on Mexican soil. The permission, adds El Globo, will positively not be granted.

Referee Siler Starts For Texas.

CHICAGO, Feb. 6.—George Siler, referee of the Maher-Fitzsimmons and other fights, at El Paso, left for Texas last night by the Atchison road.

NOT YET IDENTIFIED.

The Fort Thomas Murder Mystery as Far From Solution as Ever.

CINCINNATI, Feb. 6.—The mystery of the murder in the Kentucky highlands, near Fort Thomas, is no nearer solution than it was last Saturday night. Every thread that might lead to the identification of the murdered woman is eagerly followed.

No end of mysterious disappearances hunted down have been cleared of mystery by the finding of the lost one. The discovery of an apparent clew no longer gives rise to a suspicion. Each new one is followed to its end, as a matter of duty. It looks now as if the murderer, having left no witnesses behind him, has covered up the tracks of his retreat, so as to completely baffle detective skill.

The Latest Clew.

GREENCASTLE, Ind., Feb. 6.—The detectives and newspaper men who have been here from Newport and Cincinnati, investigating the murder case all left the city last night, part of them going north, the others returning to Cincinnati.

The latest rumor here is that the clothing and bonnet pins found on the body have been fully identified by a woman here who made the clothing for a young lady who resided here and left the city about a week ago. Some arrests are expected to be made soon.

Freight Train Wrecked.

BARNESVILLE, O., Feb. 6.—A west-bound freight on the Baltimore and Ohio Southwestern broke in two one mile east of Spencer's Station yesterday, the rear part running into the front, killing brakeman S. C. Parsons and slightly injuring Stewart Gains.

AN APPALLING CRIME

Chicago Startled by Another Horrible Tragedy.

AN ENTIRE FAMILY MURDERED

An Avowed and Rampant Anarchist Murders His Father, His Mother, His Wife and His Three Daughters and Then Ends His Own Existence—Details of the Bloody Crime.

CHICAGO, Feb. 6.—For the third time in this city within a year a man has murdered all the members of his family and then completed his awful work by taking his own life. The last to commit the appalling crime is Richard Klatke, an avowed and rampant anarchist, and his work transcends in calm deliberation, cold cruelty and genuine butcher work anything that went before. Not only did he kill his wife and children, but murdered his father and mother as well.

The crime was committed between 6 o'clock Tuesday night and 7 o'clock yesterday morning—at what hour no one knows. Klatke, who was a carpenter, living at 207 Berta avenue, first shot and killed his aged father and mother, his wife and three children, and then, putting the revolver to his own head, fell dead close to the bedside of two of his murdered daughters.

The dead are:

Richard Klatke, carpenter, 38 years old.

Katherine Klatke, his wife, 31 years old.

Johann Klatke, his father, 73 years old.

Wilhelmina Klatke, his mother, 71 years old.

Mina Klatke, daughter, 9 years old.

Hannah Klatke, daughter, 8 years old.

Emma Klatke, daughter, 7 years old.

The first intimation of the terrible tragedy was gained by Adolph Schmidt, a carpenter, who lives in the house just west of that occupied by the Klatkes, when he called shortly after 7 o'clock in the morning to get Klatke to go to work with him. Schmidt knocked at the door of the house and could get no response. He went to the little window and looked in. The little room which served the purpose of kitchen, diningroom and parlor was deserted. Schmidt grew alarmed, for the family was usually stirring early, and being unable to get in through the door, he shattered the window pane. Thrusting his head and shoulders through the opening he peered into the quiet house.

Through the door that led to the sleeping room of the old couple, Schmidt could see the lifeless face of old Johann Klatke, his gray hair and beard matted with blood that had flowed from a wound near the left temple.

In the bed beside her venerable husband lay Klatke's mother, a bullet hole between her eyes and blood stains down both sides of her face. Her arms were raised above her head, her fingers clasped together, as though the noise of the shot that killed her husband had partially awakened her, and she was looking from sleep when the revolver had been turned on her.

On seeing that murder had been committed, Schmidt dragged himself through the broken window into the house. In the back bedroom, which Klatke, his wife and youngest daughter occupied, Schmidt saw the bodies of the wife and child, each shot through the temple and each with towels bound about the lower parts of their faces, as though chloroform had been used, but it had all trace had evaporated, for there was not the slightest odor in the house. The mother was lying on her side, in an unnatural position, suggesting the possibility of a struggle, but the child was lying as naturally as though she had just dropped asleep, and the bedclothes were not deranged.

In the dark, inside chamber, back of the old people's bed room, a still more hideous sight presented itself. Facing the door, half stretched upon the floor, half leaning against a trunk, lay the murderer of his family. Beside him was a pool of blood that had flowed from a bullet wound in his temple. In the bed by the wall lay two pretty little girls, their faces stained with blood, for they too had been shot through the head.

As soon as Schmidt had taken in this scene he rushed from the house, crying that the whole Klatke family had been murdered.

Carl Braun, a neighbor, heard the cries of Schmidt, and ran to summon the police, Schmidt being too overcome with horror to do anything. When the police arrived they took possession of the house and sent at once for a doctor. Dr. Friend arrived shortly, but not a vestige of life remained in any of the bodies and medical assistance was useless.

The last seen of Klatke by anyone outside his own family was between 8 and 9 o'clock Tuesday night, when he called at Schmidt's house and made arrangements to go to work with Schmidt in the morning. Klatke had been out of work for some time and Schmidt had just secured him a job.

The cause of the tragedy is unknown. Klatke had been doing very little work of late, and devoted more time to hanging around saloons and denouncing American institutions than in looking for it. His wife, however, was a hard working woman, and by her labors over the wash tub managed to keep the family from absolute want.

On the wall of the living room of Klatke's house hang two pictures which tell their own story. One of the pictures represents the Goddess of Liberty holding a red flag, with men and

women also bearing the red badge of anarchy crowding to the base of the figure. The other picture represents Governor Altgeld pardoning the condemned anarchists.

Katherine Klatke, the murdered wife, had been the main support of the family for months past. While the police maintain that the murderer was a worthless loafer who would rather talk anarchy than work, neighbors of the dead family say that Klatke was driven to desperation by his inability to secure work. Tuesday evening he is said to have visited a saloon, where he remarked:

"Well, life is not worth living, any way. I am tired of it, and am glad it is not for long."

As far as can be discovered, this is the only intimation, if such it was, that he gave of his intention.

BIDDERS FOR BONDS.

They Overwhelm the Treasury Department at Washington.

WASHINGTON, Feb. 6.—Four thousand six hundred and forty-six bids for \$558,269,850 worth of bonds: Such is the tremendous total of the subscriptions opened at the treasury department yesterday in accordance with the terms of the call issued a month ago inviting proposals for \$100,000,000 of United States four-per-cent bonds, to run for 30 years from Feb. 1, 1895. These figures do not include about \$120,000,000 of "crank" bids, rejected as bogus. The immense offerings astounded experts.

The bids literally swamped the treasury department which was so taken by surprise that, although extra clerks had been hurriedly drafted, the work of tabulating the bids were not completed and it is impossible to tell with definiteness how many bids and for what aggregate has been received at figures in advance of the upset price of 110.6877 at which a syndicate composed of J. P. Morgan & Company, Harvey Fisk & Company and the Deutsche Bank of Berlin offered to take the whole loan. The bids ranged from par up to a single \$50 bid at 150. It is impossible therefore to say at this time how the awards will be made.

Treasury officials regard the loan as a complete success, both as to the popular subscription feature and the prices obtained. Bids came from several thousand individuals and from hundreds of national banks and other banking institutions. Nearly all the leading New York bankers and big insurance companies were represented in the list of bidders, but with few exceptions they were outmaneuvered by the Morgan syndicate.

Owing to the confusion caused by the magnitude of the offerings and the consequent delay in classifying and scheduling the bids, any authoritative statement of the policy that will be pursued can not be made at this time. As the great bulk of the offerings were below the Morgan figure, it is believed that the syndicate headed by the great New York banker will be accepted for at least \$50,000,000 and possibly more. In any event, no bid below the syndicate rate 110.6877, will be accepted, as that rate covers the entire loan.

It is understood that Mr. Morgan will procure a part of the gold from abroad and will not need to deplete the treasury to furnish any part of the gold called for under his bid. There were a vast number of bids for figures fractionally rising above 110, but under the Morgan figure and for amounts aggregating sufficient to take up the entire loan. Among them were the offers of the Stewart and McCall syndicates including the big insurance, banking and trust companies of New York city which stood ready to take huge blocks of bonds at figures in excess of prices named a week ago as high mark for long loans.

Secretary Carlisle was greatly pleased at the success of the bond offerings. He said no definite statement could be made as yet concerning the awards to successful bidders, nor how far, if at all, he would exercise his option or rejecting any or all bids.

THE ANNEKE JANS CLAIMANTS.

Three Hundred of Them Meet and Form an Association.

CLEVELAND, Feb. 6.—Three hundred claimants to shares in the alleged Anneke Jans estate, which is said to consist partly of 192 acres in the heart of New York city, met in Cleveland yesterday, representing associations of the so-called heirs in Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, California, Pennsylvania, New York, New Brunswick, Holland and Italy. Their idea is to form one great international corporation to fight for the property, which is worth many million dollars. Their chief opponent is the corporation of Trinity church, New York.

They decided to incorporate under the laws of Ohio. Their organization will be known as the Anneke Jans International union and will have a capital stock of \$10,000. Temporary officers were elected as follows: President, S. W. Bailey, Sioux Falls, Ia.; vice president, E. F. Vanvechten, Milwaukee; secretary, Miss Mary C. Francis, New York. The entire session was devoted to discussion of the merits of the claim and to methods that should be employed in trying to dispossess the Trinity church corporation.

An effort has been made to secure the local services of ex-Governor George Hoadley of New York but he refused to accept the case, on the ground that there was no merit in the claim.

An Overdue Steamer Arrives.

PORT TOWNSEND, Wash., Feb. 6.—The British steamer Argonbrod, from Japan, arrived yesterday. She was long overdue and, fears, had been expressed for her safety.

WAR OVER SALOONS.

This Time the Fight Is in Jackson County.

VALLONIA WANTS A LICENSE

Renewal of an Application to Sell Intoxicants in the Village—Ex-United States Treasurer Huston's Bank at Connersville Has Failed—Verdict of a Coroner's Jury—Other Indiana State News.

BROWNSTOWN, Ind., Feb. 6.—It is evident that the citizens of Vallonia, three miles south of here, are on the verge of another saloon war. The temperance people of that place succeeded last December, under the Nicholson law, in defeating the only saloon application, which was made by Joseph Robbins. In yesterday's issue of a local paper appears an application for a liquor license by Lorenzo Robbins, son of the former proprietor of the saloon.

Among the anti-saloon element are some of the wealthiest citizens of the county, who have successfully and unsuccessfully waged war against saloons in their town for the past five years.

The saloon men claim that they will be successful this time, on the ground that many who signed the remonstrance before will refuse this time, among whom are some of the business men who claim that no saloon there "kills trade." Vallonia is the only town in the county which has shown any appreciation of the Nicholson law. There are about 40 saloons in this county.

Seven Years Over a Century.

JEFFERSONVILLE, Ind., Feb. 6.—The venerable Daniel Baugh, who, on the 1st of April will be 107 years old, surprised his friends by appearing on the streets yesterday, after a long illness from a broken limb. He spent some time discussing politics, being an ardent Republican. He is an admirer of Governor Bradley of Kentucky, and thinks the election of General Harrison to enter the presidential race will benefit Governor Bradley in his political aspirations.

Indiana Banks.

RICHMOND, Ind., Feb. 6.—Indiana has 15,636 depositors in her small number of savings banks and their aggregate deposits are \$3,667,312. The laws of this state are not calculated to encourage savings banks, so there are very few in the state, the building and loan associations taking their places as depositories for small savings. The amount in these is greatly in excess of the few millions in savings banks.

Justifiable Homicide.

PLYMOUTH, Ind., Feb. 6.—The coroner, after hearing the testimony of 11 witnesses, returned a verdict in the murder committed near here last Thursday, that John Swerdlow came to his death at the hands of Samuel Smart. The coroner found that Smart acted in self-defense and was exonerated from all blame. The verdict produced quite a ripple of excitement.

Shot at Each Other.

GREENSBURG, Ind., Feb. 6.—At Adams, last night, John Boustie and John Lee quarreled over a lively bill and began shooting at each other. Lee was wounded just below the heart and Boustie received a bullet in the arm and another in the shoulder. Frank Cline, a bystander, was shot in the leg by one of the men. Lee and Boustie are in a serious condition.

Indicted For Protecting Property.

LOGANSPORT, Ind., Feb. 6.—Edward Closson, a wealthy insurance man, of this city, has been indicted by the grand jury for drawing a deadly weapon. A few weeks ago workmen attempted to erect a telephone pole in front of Closson's residence, and he drove them away at the point of a shotgun.

Five Horses Created.

SHELBYVILLE, Ind., Feb. 6.—At 5 o'clock last evening the barn on the farm of A. J. Thurston, six miles west of town, was destroyed by fire. Five horses perished in the flames. The loss on barn and contents will amount to \$1,500, with no insurance.

Diphtheritic Scare Over.

RICHMOND, Ind., Feb. 6.—The diphtheria scare in this city is about at an end. There have been about one dozen cases, and several deaths have occurred. At the present time there are but two patients, and both are convalescent.

Depositors Will Be Paid in Full.

CONERSVILLE, Ind., Feb. 6.—The Citizens' bank, owned by ex-United States Treasurer Huston, assigned yesterday. The statement to the public says that all deposits will be paid in full in three months.

Saved From the Sea.

SAN FRANCISCO, Feb. 6.—The schooner Compeer arrived from New Whatecom last evening with the crew of the British ship Ninoveh on board. They were picked up south of Cape Flattery, having deserted the vessel, which was in a sinking condition. A hurricane was encountered. Everything above deck was swept away, and four of the crew were injured. The ship was doomed when the Compeer hove in sight. The crew of the sinking vessel was quickly transferred to the schooner and the Ninoveh was fired. She carried 840,000 feet of lumber.

Housekeepers.

The lecturer at the opera house on the fourth of February told you that pure food supplies "could be obtained," which was nothing new to you all. We have always tried to impress upon you the importance of using only the very purest and freshest goods in our line. We have always handled the finest quality of pure ground pepper, ginger, cinnamon, mustard and all kinds of spices, pure extract vanilla made from the genuine Mexican bean—without the addition of Spanish Tongue bean, extract lemon, made from the oil of lemon obtained from the lemon peel. Our pure baking powder made from bicarbonate soda and cream tartar and free from alum and ammonia. Ours must have been one of the five powders spoken of by the lecturer. The finest and best was at all prices always kept by us, of exquisite flavor and aroma. We purchase all of these supplies from first hands only, and sell them at reasonably low prices. Look at our display in our show window. Bear in mind everything we sell is guaranteed. Respectfully, JONAS C. PEARCE, the druggist.

Full Text of Mr. Hiles' Pet Measure, Which Has Already Passed the House.

The Hiles Compulsory Education bill, adopted in the House Thursday by a vote of sixty-three to thirty-one, may have a closer call in the Senate. In full it is as follows:

Be it enacted by the General Assembly of the Commonwealth of Kentucky: Section 1. That every parent, guardian or other person in the State of Kentucky, having the control of any child or children between the ages of (7) seven and (14) fourteen years, shall be required to send such child or children, annually, eight (8) consecutive weeks, to some public or private day or night school for children: Provided, however, that this act shall not apply in any case where the child has been or is being taught at home in such branches as are taught in public schools for a like period of time and subject to the same examinations as other pupils of the district or city in which the child resides, or whose physical or mental condition renders his or her attendance impracticable, or who is excused by the trustees of the public school district, or the Board of Education of the city in which the parent, guardian or person having control resides, upon its being shown to their satisfaction that the parent, guardian or person having control was not able, by reason of poverty, to clothe such child properly, or that he or she has already acquired the ordinary branches required by law, or that there is no white school, in the case of white children, or colored school, in the case of colored children, taught within two (2) miles by the nearest traveled road.

Sec. 2. Any parent, guardian or other person failing to comply with the provisions of this act shall forfeit to the use of the schools in the city, town or common school district in which such child resides, a sum not less than five (\$5) nor more than twenty (\$20) dollars for the first offense, not less than ten (\$10) nor more than fifty (\$50) dollars for the second and every subsequent offense, and costs of suit.

Sec. 3. It shall be the duty of any School Trustee or President of the Board of Education to inquire into all causes of complaint and neglect of duty prescribed in this act, and he shall notify in writing the parent, guardian or other person so offending that such complaint has been made, and if the cause be not shown within five (5) days, to at once proceed against the responsible persons as is hereby provided; and any School Trustee or President of the Board of Education neglecting to undertake such prosecution in good faith for such offense, within ten (10) days after a written notice has been served on him by any taxpayer in said district or city, unless the person so complained of shall be excused by the District or City Board, or Board of Education, for reasons herein before stated, shall forfeit to the public schools in the city, or common school district in which said Trustee or President of the Board of Education resides, a sum not less than ten (\$10) nor more than fifty (\$50) dollars.

Sec. 4. Any person having control of a child, who, with intent to evade the provisions of this act, shall make a willfully false statement concerning the age of such child, or the time such child has attended school, shall forfeit for each offense, a sum not less than five (\$5) nor more than twenty (\$20) dollars, for the use of public schools for such city, town or district.

Sec. 5. Any fine or penalty mentioned in this act may be sued for and recovered before any court of record or Justice of the Peace of the proper county, in the name of the Commonwealth of Kentucky, for the use of the public schools of the city, town or district in which said child resides.

Sec. 6. That upon the trial of any offense as charged herein, if upon such trial it shall be determined that such prosecution was malicious, then the costs in such case shall be adjudged against the complainant, and collected as fines in other cases.

Sec. 7. The conditions and provisions of this act shall apply to any parent, guardian or person having control of any colored child or children, in like manner, as in sections 1, 2, 3, 4, 5 and 6, but no white child shall be permitted to attend or become a pupil in any school for colored children, and no colored child shall be permitted to attend or become a pupil in any school for white children.

HEALTH and strength carry us through dangers and make us safe in the presence of peril. A perfectly strong man with rich, pure blood, has nothing to fear from germs. He may breathe in the bacilli of consumption with impunity. If there is a weak spot where the germs may find an entrance to the tissues, then the trouble begins. Disease germs propagate with lightning-like rapidity. Once in the blood, the only way to get rid of them is to kill them. This is what Dr. Pierce's Golden Medical Discovery is for. It purifies the blood. That means that it kills the germs, but that is only part of what it does. It assists digestion by stimulating the secretion of digestive fluids, so promoting assimilation and nutrition; purifies and enriches the blood and so supplies the tissues with the food they need. It builds up strong, healthy flesh and puts the whole body into a disease-resisting state.

A SLICK SCHEME

Is This Which is Worked by These Two Shrewd Swindlers.

A new swindle is abroad in the land, says the Lexington Herald. The community is warned to be on the lookout for the woman book agent who calls and leaves a volume for inspection. She doesn't talk you to distraction or bore you to death soliciting you to buy it. Oh! no. She simply leaves the book for you to look over, and says she will call later. This is apparently a very modest and business-like way to proceed, but the next day a man calls and asks if the book has been examined, saying that the lady leaves the book and he does the soliciting.

The book is given to him, and a day or two later the woman who left it calls. When she learns that it was given to the man, she resorts to tears, lamentations and sometimes hysteria, says that he has done it all along the street; that he must have seen her leaving the books, and followed before she had time to get back; that she is very poor and can not afford to lose the book; that they had no right to give it to any one but her and other things equally convincing, until the victim pays for the book.

The Modern Way

Commends itself to the well-informed, to do pleasantly and effectually what was formerly done in the crudest manner and disagreeably as well. To cleanse the system and break up colds, headaches and fevers without unpleasant after effects, use the delightful liquid laxative remedy, Syrup of Figs. Don't Wait

To do your white sewing until the spring comes with its many duties and balmy days to woo you from your work. Unbox the machine, thread the needle and we will furnish the material your foresighted industry demands. Have you seen our window? Does not its prettiness suggest a spring need?

Embroideries.—This season's goods, and as low priced as they are lovely. It is wonderful how much Embroidery quality and beauty we can give you for a few cents a yard. Five cents heads the list with the daintiest kind of an edge, and then upward until the \$1 quality shows its beauty.

Our housecleaning discovered some Embroidered Flouncies. They used to be \$2, \$3 and \$4 a yard; now your choice for 50c. You can use them for sash, window or door curtains, aprons, dresser covers and the myriad things into which a woman can convert prettiness that knocks so lightly at her purse.

Laces.—Every person who is making children's dresses, underwear and the like should see this display. You can fill a modest want for 2½, 5, 6, 7, 8½ or 10c., then go up the scale until the filmy loveliness of 50c. is reached.

White Goods.—Plain, striped, bared and dotted, Organdy, Dimity, Swiss, Persian Lawn, Nainsook, Paris Muslin, India Linen, Jaconet Mull, Cambric, Linen and Muslin await you, and the price is 5 with all the intermediates up to 75c.

Remnants in Embroideries and Laces in one and a half to five yard lengths, different widths, all good patterns. Price, one-third off regular.

ANOTHER STORMY SCENE

In the Legislature Yesterday, and Liveller Times Expected To-day.

There was another stormy scene during the joint session of the Legislature yesterday. At the close of the ballot for Senator, Mr. Clark, Democrat, offered a resolution that the joint assembly go into the election of a Librarian. While he was reading his resolution the Chair considered a motion to adjourn. The Democrats demanded the yeas and nays on the motion, but the Chairman would not recognize the call, but put the motion. The Democrats hissed the Lieutenant Governor and say his ruling will make trouble to-day.

In the joint ballot for Senator the roll call showed 134 present, Clark and Lay, and Furnish and Hinton being paired. Holloway started the break in the anti-Blackburn column by voting for Blackburn in a speech of explanation, which was wildly cheered. Hayward followed up the break by a similar vote.

Stee called out "Hunter," and the Republicans went wild with enthusiasm. Weissinger voted for Carlisle, and cheers again came from the Republican side. Carroll voted for Carlisle. Poor voted for Bate. The ballot resulted: Hunter 66, Blackburn 62, Carlisle 3, McCreary 2, Bate 1.

The credentials of Representative-elect Beckham were presented to the House yesterday morning by Mr. Hiles and Mr. Beckham was then sworn in. He drove sixty miles through the country to arrive in time to vote for Senator. He will serve on the same committees that the late Isaac Wilson served on.

Senator Ogilvie made his appearance on the floor of the Senate yesterday morning for the first time. His friends, both Democrats and Republicans, crowded around him and congratulated him upon his appearance. His physician accompanied him and watched him closely. This makes the last Democrat to come, and gives them the same number as the Republicans.

It is expected that the Republicans will attempt to unseat two Democrats to-day. The Democrats are prepared to retaliate when the unseating begins. They held a joint caucus Tuesday night, and arranged their plans. A resolution was adopted instructing Chief Senate Clerk Cromwell, who is also Chief Clerk of the joint assembly, not to call the names of any Republican Senators who might be removed for ineligibility. Without these votes Dr. Hunter can not be elected Senator. If the removed Republicans demand admittance to the joint session, it will be refused. Capt. Bob Tyler, Sergeant-at-Arms of the joint assembly, it is said, will swear in as assistants Col. Jack Chinn, Capt. Jim Williams and several others, who will be supposed to allow none to enter the assembly who is not entitled to come in.

Among the new bills introduced in the House are the following.

Act to repeal the act for the creation and regulation of private corporations.

An act to amend the act authorizing Courts of Claims or Fiscal Courts to appropriate any surplus of money for improving county roads.

Act providing that all fines and forfeitures arising from misdemeanors and penal offenses in towns of the sixth class shall inure to the benefit of such towns, and the Town Attorney shall receive the same percentage as is now allowed to County Attorneys.

Act providing that all bonds, notes, certificates of stock in domestic or foreign corporations or in joint stock companies, deeds of trust given as security for debt and all other evidences of debt shall be assessed and taxed at their nominal or face value, as all other property is now required to be taxed.

Act requiring the United States flag to be placed on all public school buildings.

Act to enable landlords to eject tenants after ten days' notice, when they are a month behind in their rent.

Act to abolish the present system of selecting jurors and to re-enact the old law on the subject.

Act empowering County Judges to fill vacancies in the Board of Trustees' of towns of the sixth class till the next regular election.

Act to appropriate \$1,000,000 for the erection of a new statehouse at Frankfort, to be erected under the supervision of a Board of Commissioners composed of John W. Yerkes, John Young Brown, W. B. Waldeman, A. E. Willson, W. J. Stone, John L. Hager, E. E. Hume and W. H. Holt. The committee is to select the site. They are to receive no compensation for their services except mileage.

In the Senate the Committee on Courts of Justice has reported adversely on the bill creating Commissioners of the Court of Appeals, but reported favorably on the bill authorizing the Court of Appeals to appoint two official stenographers

at a salary not to exceed \$75 per month. The bill to abolish the office of Register of Lands was reported favorably.

The bill repealing the statute which makes January 1 a legal holiday was passed by a vote of 16 to 13.

The motion to reconsider the vote by which the bill passed which regulates fire insurance companies and their agents, was lost, and the bill now goes to the House. It provides that no agent of a company authorized to do business in this State, who is not a resident of this State, shall write a policy on property in this State.

P. J. MURPHY.

THREE hundred claimants to shares in the famed Anneke Jans estate, to which they claim 192 acres in the heart of New York City belong, met in Cleveland this week, representing associations of the so-called heirs in Ohio, Indiana, Illinois, Wisconsin, Minnesota, Iowa, California, Pennsylvania, New York, New Brunswick, Kentucky, Holland and Italy. Their idea is to form one great international corporation to fight for the property, which is worth many million dollars. Their chief opponent is the corporation of Trinity Church, New York. An effort has been made to secure the legal services of ex-Governor George Hoadley, of New York, but he refused to accept the case on the ground that there was no merit in the claim. Some of the heirs live in Maysville.

THE FINAL SUMMONS.

Mr. George W. Walz and Mr. Martin King Joined the Silent Majority Last Night.

Mr. George W. Walz died last night at 9:50 o'clock at the home of his son-in-law, Mr. Will Gibson, on January street, after a lingering illness. He had been a sufferer from a complication of diseases for a long time, and had been confined to his bed almost constantly for a year or so.

Deceased was seventy-three years of age. He was a native of New York, but had resided in Maysville since 1845, and was a quiet and industrious citizen. He held the position of Market Master for several years during the days of the old market house, and had also served as a Justice of the Peace and City Assessor. He was a member of Ringgold Lodge, I. O. O. F., and also of the Oddfellows' Funeral Aid Association. Two children survive him, Mrs. Will Gibson of this city, and Mr. Charles H. Walz, of Pittsburgh, Kan. His wife died years ago. The funeral arrangements have not been completed.

MARTIN KING.

Mr. Martin King died last night at 9 o'clock at his home on East Fourth street. His health had been failing for years, and he had been bedfast for three weeks. He was a son of the late Martin King, of East Front street, and was thirty-seven years old. His wife and one child survive him. The funeral will occur Friday at 2:30 p. m. at the residence. Burial in the Maysville Cemetery.

THE FT. THOMAS MURDER.

The Victim Believed to Be Pearl Bryan, Daughter of a Wealthy Indiana Farmer.

The mystery surrounding the horrible murder at Ft. Thomas is at last solved.

The victim was Pearl Bryan, daughter of a wealthy farmer near Greencastle, Ind.

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhoea and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD,
Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other harmful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOP,
Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D.,
111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

A NEW CUBAN RESOLUTION.

It Provides For the Recognition of Belligerency in Both Sides.

WASHINGTON, Feb. 6.—The senate committee on foreign relations yesterday agreed upon a substitute for the resolution heretofore reported on the question of recognition of Cuba, and authorized Senator Morgan to report it to the senate. The substitute is in the shape of a concurrent resolution and is as follows: "Resolved by the senate (the house of representatives concurring), That in the opinion of congress a condition of public war exists between the government of Spain and the government proclaimed and for some time maintained by force of arms by the people of Cuba; and that the United States of America should maintain a strict neutrality between the contending powers and accord to each all the rights of belligerents in the ports and territory of the United States."

The committee also voted to make an effort to take up the Cuban question in the senate as soon as the urgent deficiency bill and the resolution for the distribution of the appropriation bills can be disposed of.

The action of the committee upon the resolutions as finally agreed upon was unanimous with the exception of Senator Cameron, who announced his adherence to his position looking to the formal recognition of independence of Cuba. The substitute differs from the original resolution in that it is a direct recognition so far as congress can give it of the belligerent rights of the Cubans and does not contemplate, as did the first measures, any appeal to Spain to accord such rights. It also contemplates taking the matter entirely out of the hands of the president as he is not required to sign a concurrent resolution.

There was an effort in the committee to have a resolution put in such shape so as to have whatever action should be taken by this country executed by the president, but the suggestion was overruled on the theory that congress should act independently, leaving the executive to pursue whatever course he may deem proper. The committee realize that there can be no formal acknowledgment of Cuban rights except through the president, but think the adoption of the resolution by both houses would have a strong moral influence.

BLACKBURN GAINS.

Two Senators Change Their Votes in the Kentucky Contest.

FRANKFORT, Ky., Feb. 6.—The greatest crowd that has ever attended a joint ballot was present yesterday. The galleries and lobbies were crowded, and some women were present at first, but their fears got the best of them and they went away. The greatest excitement prevailed, and the crowd was with difficulty kept from pushing onto the floor of the house.

When the name of Senator Hayward was called he asked to be allowed to explain his vote. He said he was for sound money, but he was confronted by a peculiar crisis. He was not moved by a threat. But in order to secure the greatest good for the greatest number he would vote for Blackburn.

This announcement was received with great applause. Senator Hayward has heretofore voted for a sound money Democrat. Senator Holloway, who has also voted that way, voted for Blackburn. Senator Stoge voted for Hunter.

The result of the ballot was as follows: Hunter, 66; Blackburn, 62; McCleary, 2; Carlisle, 2, and Bate, 1.

The first man who ever sang a negro song on the stage was an actor named Herbert. He sat in a chair before the curtain. He painted his face with black paint, burned cork being then unknown.

BURGLARS' SHOOTING AFFRAY.

They Fell Out as They Were About to Rob a House.

WINNIPEG, Feb. 6.—A desperate shooting affray occurred yesterday morning between two burglars who fell out as they were about to rob a house. John Nankerville shot William Smith and buried him in the snow. Noticing a movement in Smith's body he returned and fired three more shots into Smith, stabbed him thrice and pounded his head with a revolver.

He then left Smith for dead, but the latter revived and called for help. He is now in the hospital and has a slender chance for life.

Nankerville is under arrest. The motive for his deed was the fear that Smith might tell of former shooting affrays he had been in.

RUSTLERS' REVENGE.

They Murder a Prosecuting Attorney and His Little Son.

ALBUQUERQUE, N. M., Feb. 6.—Colonel A. J. Fountain, one of the best known men in New Mexico, was kidnapped on the road from Las Cruces to White Oaks by cattle thieves, and is supposed to have been killed, together with his little son, who was his only traveling companion.

Fountain was prosecuting attorney for the district and had been pushing the rustlers vigorously. He had just been at court in Lincoln county, where he indicted a large number of them, and was on his way home, when he was waylaid and doubtless killed. A large party is scouring the country for the rustlers.

"THE HERMIT OF ARGYLE."

He Passes Away After Having Reached the Age of One Hundred and Four.

ARGYLE, N. Y., Feb. 6.—Thomas Driscoll, "The Hermit of Argyle," is dead at the Rensselaer home for aged men, aged 104. He was born in the county of Cork, Ireland, and came to this country at the age of 35. Sixty-five years ago he withdrew from the world to lead the life of a recluse, and nothing could induce him to have any further relations with society.

For the past 40 years he had resided in a cabin near the state boundary line. Rev. Mr. O'Brien had for some time been trying to persuade the old man to take refuge in the Rensselaer home, but notwithstanding his great age and growing helplessness he resisted until a few weeks ago, when he permitted himself to be transported here. It was his first ride on a rail road train.

CIGARETTE FIGHT.

Commissioner of Internal Revenue Won't Take a Hand.

WASHINGTON, Feb. 6.—A few weeks ago several manufacturers of cigarettes appeared before the commissioner of internal revenue and asked that he make a ruling on the practice of manufacturers packing inside of cigarette packages foreign substances, such as pictures, pennies, etc.

Representatives of the so-called independent manufacturers also appeared and urged that no ruling be made.

After taking the matter under advisement, the commissioner has decided that he will leave the matter where it now stands and make no ruling at all.

NEW YORK, Feb. 6.—A dispatch to The World from Cape Town, says Hammond, the American prisoner in Pretoria, is very ill. The heat is extreme and the condition of the jail is exceedingly unwholesome. Some of the leaders of the reform movement at Johannesburg are crowded into one cell only 11 feet square.

MORE BATTLES IN CUBA.

Havana Censorship News Reports That the Insurgents Were Defeated.

HAVANA, Feb. 6.—An engagement of considerable importance is reported to have taken place yesterday at the village of Manjuaal, province of Matanzas, between the Spanish column commanded by Colonel Vicuna and the bands under the leadership of Cayito, Alvares, Roque and Amieva. The fight lasted half an hour, and in that time 30 men and 30 horses were killed belonging to the insurgents. The troops lost two men wounded.

The column of troops commanded by Colonel Tejada has had a skirmish with the insurgents, commanded by Jose Mueco and Rabi, it is claimed, on the right side of the Cauto river, between Zarzal and Mabio, in the province of Santiago de Cuba. The insurgents left nine killed on the field, together with a number of rifles, and retired with many wounded. The troops lost one officer and one soldier killed and had 32 wounded.

Rome's Attempts to Be Modern.

The tendency in Rome has of late been toward the artificial, and it is a refreshment to come upon some untouched portion of what is good as well as picturesque. The attempt to produce a modern capital at all hazards and costs has told upon the population as well as upon the city itself. For at great centers the first result of modern civilization is vice, and the next is degeneracy. It is really quite useless to ignore the fact in print, when it is perfectly apparent to every man in his senses. Italy is no worse than other countries, but neither is she an exception to the general rule, and since the most necessary institutions of civilization are prisons and hospitals, it is to Italy's credit that she should have spent as much as she has upon them in the midst of so much utterly senseless extravagance in other directions.—Marion Crawford in Century.

When Emerson Proposed.

Mrs. Ellen Emerson says that she remembers well the day when her father, the Concord philosopher, set out to propose marriage to her stepmother. "The liveryman seemed to know," she adds, "that it was a special occasion, and the horse and buggy which he gave father were made garish by a pair of bright yellow reins. Poor father looked so disconcerted. He pleaded gently for something less conspicuous, but the man was obdurate. I can see him now driving off with those glaring reins hanging loosely over the horse's back."

A Story of Bismarck.

The following anecdote is related of Prince Bismarck, and whether true or not is good enough to be repeated: While waiting in the emperor's antechamber one day the prince heard music coming from the imperial nursery. He therefore entered and found the young crown prince amusing himself at the piano while his younger brothers were dancing. The children at once seized Uncle Bismarck and insisted that he should take a turn at the piano. Prince Bismarck complied, and in the midst of the fun the kaiser entered. He watched the scene for a moment and then said, "What, prince, are you already making my children dance to your tune?"

Apartment Houses Damaged by Fire.

NEW YORK, Feb. 6.—The Palmenburg apartment houses in One Hundred and Twenty-fifth street were almost totally destroyed by fire last night. The loss is estimated at \$50,000; partially covered by insurance. Origin of fire unknown. One fireman was overcome by smoke and removed to a hospital. Several other firemen had narrow escapes. All of the occupants of the building escaped without injury except Mrs. Arthur Berg, wife of the janitor, who, in attempting to save some of her property, was severely, if not fatally, burned.

Gladness Comes

With a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed. There is comfort in the knowledge that so many forms of sickness are not due to any actual disease, but simply to a constipated condition of the system, which the pleasant family laxative, Syrup of Figs, promptly removes. That is why it is the only remedy with millions of families, and is everywhere esteemed so highly by all who value good health. Its beneficial effects are due to the fact, that it is the one remedy which promotes internal cleanliness, without debilitating the organs on which it acts. It is therefore all important, in order to get its beneficial effects, to note when you purchase, that you have the genuine article, which is manufactured by the California Fig Syrup Co. only; and sold by all reputable druggists.

If in the enjoyment of good health, and the system is regular, then laxatives or other remedies are not needed. If afflicted with any actual disease, one may be commended to the most skillful physicians, but if in need of a laxative, then one should have the best, and with the well-informed everywhere, Syrup of Figs stands highest and is most largely used and gives most general satisfaction.

BAD TIMES?

Well, we should say so. Those Clocks and Watches are too badly out of fix to be of any use. They've lost their time entirely. You'll lose your time, too, if you're unprovided with good Clocks and watches. We have a full supply of both, all accurate time-keepers and in perfect order. Better Watches than ours are not manufactured. Whatever the price of any watch we carry, it's the best of its kind and a full value. Get a timepiece; get the best; get ours.
